SUMMARY

Detail-oriented Full-Stack Developer with expertise in the MERN stack (MongoDB, Express, React, Node.js). Proven track record in developing secure, scalable web applications and optimizing frontend performance. National-level hackathon finalist with a strong foundation in Data Structures, Algorithms (DSA), and modern software design patterns.

EDUCATION

B.Tech., CSE

Mahakal Institute of Technology and Management

Pursuing

CGPA: 7.02

Senior Secondary

Saraswati H.S. School — MP Board

2022

Percentage: 79.8%

Secondary

Saraswati H.S. School — MP Board

2020

Percentage: 91.5%

TECHNICAL SKILLS

- **Languages:** JavaScript, C++, C. **Web:** HTML, CSS, REST APIs
- **Frameworks:** Node.js, Express.js. **Databases:** MySQL, MongoDB.
- **CS Concepts:** OOPs, Data Structures and Algorithms, JWT
- **Tools:** Git, GitHub, Postman, VS Code
- **Soft Skills:** Analytical Problem Solving, Creative and Confident, Proactive Leadership, Communication.

PROJECTS

Dev Collab – Developer Collaboration Platform

- Developed a full-stack platform enabling developers to collaborate via GitHub OAuth and real-time repository validation.
- Implemented high-security authentication using Access/Refresh tokens stored in HTTP-only cookies to prevent XSS attacks.
- Architected a scalable backend with Node.js and MongoDB to handle concurrent structured discussions.

GoalCraft –

- Developed a full-stack interview experience sharing platform for students using Next.js, Node.js, and MongoDB.
- Implemented secure JWT-based authentication, profile management, and bookmark features for personalized user experience.
- Integrated Cloudinary file uploads and advanced search/filter functionality for efficient interview content management.

Scatch –

- Developed a full-stack E-Commerce web application (Scatch) using Node.js, Express.js, MongoDB, and EJS.
- Implemented secure user authentication (JWT & sessions), product management, and cart functionality.
- Gained hands-on experience in CRUD operations, backend architecture, and server-side rendering.

INTERSHIPS

Python Intern – IndusAI Solutions [Certificate](#)

- Completed a Python internship focusing on core Python concepts, scripting, and problem-solving.
- Worked on basic automation, data handling, and logical implementation using Python.
- Gained hands-on experience in writing clean, efficient, and well-structured code.

Software Development Intern (C, C++, Java, Python, DBMS) – Affimintus Technologies, Indore [Certificate](#)

- Gained practical exposure to C, C++, Java, Python, and DBMS fundamentals through hands-on tasks.
- Implemented basic programs, database queries, and logic-based solutions to strengthen core CS concepts.
- Developed a strong understanding of programming fundamentals, database operations, and problem-solving techniques.
